

TSP Advisory

TSP Annual Returns

(Updated Annually)

Each year, *TSP Advisory* presents a bar chart illustrating the previous year's returns of the five TSP Index Funds -- the C-Fund, F-Fund, I-Fund and S-Fund, and *TSP Advisory's* five model allocations -- the DAA Models, and the four TAA Model allocations.

The returns to each of the TSP funds are graphed on the left side of the bar chart. The return to a standard 20% allocation in each fund is graphed in the center (red-orange pattern), and the five *TSP Advisory* model allocations are graphed on the right side of the chart.
